

Employment Ad for AZ Driver

Comco Canada, a family owned and operated company located in Barrie Ontario, has been a leader in Petroleum Management Solutions for over 50 years. In addition to petroleum installations, Comco provides Environmental Assessments and Facility Service and Maintenance to meet the current regulations and standards.

We are looking for an experienced AZ Driver who is interested in broadening their career scope, potentially as a Petroleum Mechanic in the petroleum industry.

Responsibilities

You will be responsible for the safe and efficient operation of our heavy trucks and equipment, including floating equipment to and from project sites. You will inspect the trucks and equipment prior to setting off for the day to ensure their safe condition and compliance and report any deficiencies to the maintenance staff. You will establish and maintain your daily log book. Once on site, you may also be asked to participate in construction and remediation projects. Over a period of time, the company will assist in your education as a Petroleum Mechanic.

Key Skills and Qualifications

- A clean abstract of an Ontario class "AZ" drivers licence
- Experience in the safe operation of single axle and tandem dump truck, backhoe, mini-excavator and skid steer
- Solid communication skills both verbal and in writing
- Experience at tying down (chaining) of heavy equipment
- Physical ability to lift up to 50 lbs. and carry 20 lbs.
- Willingness to observe, intervene and correct safety issues
- WHMIS, First Aid and CPR certification, are assets, but we will train
- A desire to build and enhance your career

We Offer

- A 4 Day work schedule (Monday to Thursday – 10.5 hrs. per day) with a long weekend every week
- \$21.00 to \$25.00 per hour based on qualifications and experience
- Steady year round work (40-44 hours)
- Health Benefits
- Paid Vacation
- Job Support and Training

If you are interested in joining the Comco family and progressing your career please send along your current resume.
